Chevrolet Performance is Thrilling Millions

Never before was a low-priced car so delightful to drive Fast get-away ... easy, smooth operation ... high speed roadability ... unfailing power ... and flashy accelera-

—exactly the type of performance that everyone wants in an automobile today! In addition, there is all the finger-tip steering, all the positive braking and effortless gear shifting that have made Chevroletso decidedly popular for congested traffic. And never before was a low-priced car so comfortable— for Chevrolet springs are 88% as long as the wheelbase
...and built of chrome vanadium steel! Come in! Learn what a feeling of confidence it gives you to drive a car that is powered for the exceptional need ...that is smooth and quietatevery speed...that responds to the slightest pressure on the steering wheel.

Then you'll know why millions have acclaimed today's Chevrolet as the finest performer in the low-price field!

Electric Power Lines Are Diluting Agriculture With Industry

They are Solving The Economic Problem of Rural Alabama!

ELECTRIC power is binding the Alabama farmer to prosperity. It is diluting rural Alabama with industry. It is bringing industries to small Alabama towns. Industries create local markets for farm products. Local markets increase per capita wealth.

That is what electric power is doing for the rural Alabamian!

Look at this table and compare the wealth and advantages of the fifteen richest counties in Alabama with the fifteen poorest. Note how the value of manufactured finished products distinguishes the rich counties:

	15 Richest Counties	15 Poorest Counties
Mfg. Value finished products Average population per square		\$1,152,168
Assessed value per child of	73	31
School age	\$1,447	\$741
Value of school property Number of school days open	\$1,904,163	\$98,541 \$178,633 109

The solution of the economic problem of the Alabama farmer hangs by the copper strand of electric power lines! Through that strand flow he conveniences of an advanced civilization which is diluting rural Alabama with industry—and creating wealth!

RAPE SEED IN BULK AT

Mrs. Ebb Willis visited relatives

"How best can I trade in my present car for a new car?"

WHEN you are ready, to trade in your present car for a new car, you naturally want full value for your present car. But most of all you want full new car value.

It will therefore pay you to consider varying trade-in allowance offers in the light of these basic facts:

Your present car has only one funda-▲ mental basis of value: i.e., what the dealer who accepts it in trade can get for it in the used car market.

Your present car has seemingly dealers are bidding to sell you a new car.

7 The largest allowance offered is not I necessarily the best deal for you. Sometimes it is; sometimes it is not.

An excessive allowance may mean 4 that you are paying an excessive price for the new car in comparison with its real value.

First judge the merits of the new car 5 in comparison with its price, including all delivery and finance charges. Then weigh any difference in allowance offered on your present car.

Remember that you are making a O purchase-not a sale. You are buying a new car and simply using your present car as a credit against the new car's purchase price.

WE publish this message, believing that the public is entitled to have all the facts. And we invite you to send for the facts about General Motors products by using the coupon below.

Fast Growing Savings

The reason why the thrifty man's saving account grows so rapidly is because he saves systematically. He never allows a pay day to get by without adding a fixed sum to his savings account. And when you remember that we add interest regularly it is easily seen that the account must grow fast. Open your savings account with us now.
